

## PRODUCT DATA SHEET

## Product description

|                     |                                    |
|---------------------|------------------------------------|
| Catalogue Number    | 2-062-81-0                         |
| Product description | AHN myTip® FT 10 µL XL, clear, bag |
| Sales Unit          | case / 20 x 1000 tips              |

## Product characteristics

|                                |                                                           |
|--------------------------------|-----------------------------------------------------------|
| Graduations                    | yes                                                       |
| Filter                         | yes                                                       |
| Filter Specifications          | 18-40 µm, PE, hydrophob                                   |
| Low Retention                  | no                                                        |
| Sterilised                     | no                                                        |
| Autoclavable (max. °C, period) | no                                                        |
| Purity                         | Free of RNase, DNase, Human DNA, Pyrogens, PCR Inhibitors |

## Size

|                   |          |
|-------------------|----------|
| Max. volume       | 20 µL    |
| Length of product | 45.80 mm |

## Material/colours

|                   |                    |
|-------------------|--------------------|
| Product material  | polypropylene (PP) |
| Colour of product | clear              |

## Packaging

|                                   |                    |
|-----------------------------------|--------------------|
| Type of Packaging                 | Bag                |
| Pcs./Bag                          | 1000 tips          |
| Pcs./Case                         | 20000 tips         |
| Dimension Case Carton (H x W x D) | 399 x 273 x 400 mm |

## Storage and Handling

|             |                       |
|-------------|-----------------------|
| Temperature | below 35°C            |
| UV light    | protect from UV light |

**Note:** Improper storage can initiate degradation, which results in colour changes and can have negative effects on the physical properties of the products.

**Safety:** The product is not classified as dangerous.

**Recycling:** The product is recyclable.
